

Science classroom, high-school. It is biology, and the topic is sexual education.

TEACHER

So that's a basic understanding of not only the menstrual period, but how the vaginal cavity works, including the flow of ovulation. Can anyone tell me a common misconception when it comes to this topic?

Gemma raises her hand.

TEACHER

Gemma?

GEMMA

It's a common misconception that after sex a woman's vagina stays stretched, when in actuality, that would mean that women's vaginas were constantly stretching-

BOY

Um, well, ACTUALLY a woman's vagina does stretch. That's how you're able to tell exactly how much sex she's been having. I've gotten so good at it, that I can look at a girl and know exactly how many people she's had sex with.

GEMMA

What about giving birth? Are you saying she just flaps around for the rest of her life?

BOY

Well actually, yes, women often are very flappy after childbirth. They have to tuck in the extra vajayjay.

GEMMA

So all moms have "vajayjay" flapping around?

BOY

Um, well, actually-

Mandy is giving birth. Her husband is there, trying to help.

MANDY  
AHHHHHHHHHHH. FUCK.

DOCTOR  
Big push now. You can do this.

MANDY  
ahh. ahhhhhhhhh.

The husband goes over and looks at her vagina.

HUSBAND  
um, sweetie? I don't think you're pushing right.

MANDY  
What?

HUSBAND  
You have to push with your ovaries. That's how you shorten your labor time. You're pushing all wrong.

MANDY  
THAT'S NOT POSSIBLE

HUSBAND  
Um, well, actually, I read in a baby book that you if you push from the inside out the labor will be shorter. So, cmon, push from your ovaries.

MANDY  
What the FUCK?

HUSBAND  
Actually, it could be a really good idea-

Mandy has another pang of labor, and screams.

Lisa is the president of the United States. She is addressing the entire nation.

LISA

And that is why I am making birth control universal. This is a huge step for our country, and will make a monumental difference in the lives of millions of American women-

A male secret service person steps up behind Lisa, and leans over her.

SECRET SERVICE DUDE

Um, well, ACTUALLY, I just think it should be made clear if women didn't want to get pregnant, they could just, psshh, spit the sperm back out.

Lisa stares forward for a minute. The entire nation is waiting.

LISA

Did you just say SPIT THE SPERM BACK OUT?

SECRET SERVICE DUDE

I'm just saying, any woman who gets pregnant clearly wants to get pregnant, because the vagina naturally spits out sperm.

LISA

That's not how that works.

She goes to address the country again when:
